Needs and Uses: Section 64.901 requires carriers to separate their regulated costs from nonregulated costs using the attributable cost method of cost allocation. Carriers must follow the principles described in section 64.901. Carriers subject to section 64.901 are also subject to the provisions of 47 CFR sections 32.23 and 32.27 of the Commission's rules. Section 64.903(a) requires each local exchange carrier with annual operating revenues that equal or exceed the indexed revenue threshold, as defined in 47 CFR 32.9000, to file with the Commission a manual containing information regarding its allocation of costs between regulated and non-regulated activities. Section 64.903(b) requires that carriers update their cost allocation manuals (CAMs) at least annually; except that changes to the cost apportionment table and the description of time reporting procedures must be filed at the time of implementation. Proposed changes in the description of time reporting procedures, the statement concerning affiliate transactions, and the cost apportionment table must be accompanied by a statement quantifying the impact of each

change on regulated operations. Changes in the description of time reporting procedures and the statement concerning affiliate transactions must be quantified in \$100,000 increments at the account level. Changes in the cost apportionment table must be quantified in \$100,000 increments at the cost pool level. Moreover, filing of CAMs and occasional updates are subject to the uniform format and standard procedures specified in Responsible Accounting Officer (RAO) Letter 19. RAO Letter 26 provides guidance to carriers in revising their CAMs to reflect changes to the affiliate transactions rules pursuant to the Accounting Safeguards Order (FCC 96-490). The CAM is reviewed by the Commission to ensure that all costs are properly classified between regulated and nonregulated activity. Uniformity in the CAMs helps improve the joint cost allocation process. In addition, this uniformity gives the Commission greater reliability in financial data submitted by the carriers through the Automated Reporting Management Information System (ARMIS). In a Memorandum Opinion and Order in WC Docket No. 07-21 (FCC 08-120) the Commission forbore from many of its cost allocation rules as they apply to the former Bell Operating Companies. As reflected in the May 2011 update to this information collection, this decreased the number of respondents affected by the requirements of these rule sections. We are not changing the number of respondents with this submission.
